

Equipois Inc. Expands Senior Leadership Team
Tony Wisniewski Joins as Vice President, Business Operations

Equipois Inc., manufacturer of the zeroG™ arm for manufacturing, bioscience, and other applications, is pleased to announce that Tony Wisniewski has joined the company as Vice President, Business Operations. In this role, Tony will have management responsibility for sales, customer applications, and customer service. He will also serve as a member of the Senior Leadership Team.

Tony comes to Equipois with over 19 years of progressive experience in management, sales and business development with companies serving commercial and industrial markets. Most recently he was the Vice President of Sales & Marketing for UltraViolet Devices in Valencia, California where he led that company's aggressive growth into emerging markets. Previous to UVDI, he was General Manager for ABB Robotics in Auburn Hills, Michigan where he managed their Aftermarket Services and Robotic Automation divisions.

Tony also spent over twelve years with Ingersoll-Rand Company working in their compressed air solutions business. He served as their global manager for air treatment products and held roles in regional sales management, distribution sales management and marketing. Tony holds an MBA from the Anderson School at UCLA and a Bachelors of Science in Industrial Engineering from Purdue University.

"Tony's experience in senior roles for manufacturers of robotics and other industrial products makes him an excellent candidate to lead customer-related business functions for the company," said Eric Golden, Equipois's President and CEO. "Tony will help Equipois continue and grow its customer-focused approach to solving critical business challenges – preventing workplace injuries, improving productivity, and reducing costs."
